

## Punto de Fuga, Corral del Mate 18

Punto de Fuga - exit point - is the geometric location where the emotions of the Viña Zorzal and Matías Michelini families converge to create unique wines around the world.

The project, is really much more than a family of wines from extreme landscapes and unique *terroirs*, it is a great sentiment, a feeling that unites friends in different parts of the world in a common goal: to share and enjoy wines that make our hearts sing.

**VINTAGE:** 2018.

This is a complex vintage, winter was mild but spring was very rainy and cold. Rain was the most prominent element of the vintage after 2 years of water deficit but there was an extra effort in the vineyard management. At the end we can say It was a historically fresh and good vintage.
